

ABOUT THE CENTER

Wichita State University has one of the oldest real estate programs in the country. Since its inception, the program has strived to maintain close connections with real estate professionals throughout the region.

The Center for Real Estate was established in 2000 to help deepen the connections between the professional real estate community and the academic programs at Wichita State University. To accomplish this, we do a number of things to promote and enhance real estate markets and related industries:

- We maintain comprehensive databases of publicly-available information on Kansas real estate markets, and make many of these available on our website at www.wichita.edu/realestate. If there is data you need, let us know and we'll see what we can do to help.
- We provide independent, expert analysis of area real estate markets and policy issues related to real estate.
- We conduct high-quality academic research on real estate, and then apply this research to develop practical resources that benefit real estate practitioners, policy makers and the general public. This forecast is just one example of this effort.
- We help students connect with area real estate professionals & organizations. If you have opportunities for current students or want to hire recent graduates, let us know and we'll help you connect.
